DETAILED ACTION

This is an Allowance for Application no. 09/707044 in response to the RCE filed on February 7, 2006 where in claims 1-3, 5-9, 11, 14, 15, 25-28, 32-34, 36-38, 40, 43-45 are presented for examination.

EXAMINER'S AMENDMENT

This application is in condition for allowance except for the presence of claims 16-24 and 29-31 directed to Group II non-elected without traverse. Accordingly, claims 16-24 and 29-31 have been cancelled.

The application has been amended as follows:

Cancel claims 16-24 and 29-31.

Allowable Subject Matter

Claims 1-3, 5-9, 11, 14, 15, 25-28, 32-34, 36-38, 40, 43-45 are allowed.

The following is an examiner's statement of reasons for allowance: The claims are allowable over the prior art of record since the cited reference taken individually or in combination fails to particularly disclose a method, apparatus, computer readable medium for deconstructing video as claimed.

The closest prior art (Suzuki et al. US Patent 6,567,427) discloses a similar method of deconstructing video as shown in the Office Action mailed October 5, 2005. However, Suzuki fails to particularly teach or suggest "encoding each component of the video image sequence in accordance with the selected dimensions to form a plurality of bitstreams, such that the plurality of bitstreams forms a partial order wherein each point of the partial order represents a unique valid combination of components and

dimensions for encoding the video image sequence, and a base of the partial order represents a base bitstream comprising components that are common to each of said plurality of bitstreams, said base bitstream encoding a first version of said video image sequence" as claimed. Wherein the components and dimensions are defined as in the disclosure (Page 2 Lines 24-28 and Page 3 Lines2-6). This feature taken with the others in the claims define over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US Patent 6,614,936 to Wu et al.
